Frankfort, KY., January 30.—

GOEBEL was shot and very seriously

injured this morning at 11:00 o'clock, while passing through the State house yard on his way to the Capitol building.

Two shots were fired from a rifle, only one of them taking effect.

He struck Mr. Goebel in the right

side one third the way from the

armpit to the hip. The ball passed

entirely through the body, coming out below the right shoulder blade.

It is not thought by the physician in charge that the wound will prove fatal but as

conspirators act so.

John White

ker, a farmer from Butler county in

under arrest, charged with having fired the shot but he denies

that he had anything to do with it.

Five revolvers were found

upon him when he was taken into custody.

George W. Taylor, of the Cap-

itol, was informed that if he per-

mitted a meeting of the Legisla-

ture in his hotel, the militia will take

charge.

When the Legislature had

been adjourned, the militia were

and refused any further action.

Trumbull, who had been

asked, as chairman of the com-

mittee to be allowed to enter, and was

prevented by crossed bayonets.

The excitement was high, and hot

words were uttered by several

men, but no trouble ensued. Trim

the shooting. "Then I adjourned the House of Representatives to meet at any time and place to be fixed by me later."

The crowd cheered, and the Leg-

islature marched to a body back

and entered the building.

At the same time a large force

of militia had been gathered at the entrance to the

hotel, but no one was present to

trust entering there. The excited

ment was intense.

The Court of Appeals of the

State was adjourned to Frank-

fort to wait while the militia is here.

One reason for the Appellate

Court adjourning is the fact that

letters were received from Mid-

Western states stating that Mr. Goebel

was to be arrested.

The Rep. members of the

General Assembly are preparing

to go to London. The democrats

without an exception, will stand

by Trimble. Therefore two Leg-

islatures will be held. The upper

**RUS FOR GOLD**

**Thousands for Alaska**

More than 15,000 prospectors are at Tacoma, Seattle and San Francisco, intending to go to the Alaskan gold mines this spring. Fully \$3,000,000 worth of supplies have already been bought, and this shows the great confidence the prospectors have in the expected output. They expect the harvest in gold shipments will be immense, and in fact will be conducted almost exclusively by the great railroads. The hitherto minor, if he be a poor man, will find no chance except to hire in one of these great companies. The output of gold this season is expected by some to be so great as to take the gold and silver lae in the United States out of politics, that is, that gold will become so abundant as to be plenty for the standard or recompense money.

**Populists to Nominate Bryan**

The Populists have a plan to assemble their Convention earlier than the Democratic National Convention and forestall their action by nominating Bryan for the Presidency and some good Southern Populist for Vice-President, and they argue that the Democrats and free silver Republicans will be compelled to nominate their ticket, or split things two smethers.

**Our Boer Sympathies**

There is no mistaking but that sympathies of the people, at least a great majority of the people of the United States are with the Boers against the English in the South African war. The numerous public meetings being held throughout the United States attest this. Our great commercial and business interests are great with England, and this holds a great element for Great Britain to use against the Boers as they would be against any other power or cause where trade and business was involved. And then kinship, blood makes many sympathize with the English no matter what they do. But then the still larger element of the people honestly believes in a Republican form of Government and are against a monarch. In any shape, manner and form, and to this they have been educated for centuries. It is this loyalty for Republican institutions that causes so many of our people to sympathize with the Boers against their all-conquering foes. The Boers are at home, in their own land, defending their firesides, and they are doing it bravely, and they thereby win the admiration and love of a brave people.

The condition of David G. Colson continues to improve. No step has yet been taken for securing his life.

**Against every aspiring politician** there is a body of men that generally involves a long and costly course of legal proceedings. Putting trust articles on the files is short, sharp and decisive. It doesn't fool away any time. It accords with the principles of sound business. Mr. John Sherman said long ago that trusts should be deprived of every scrap of protection. Do that and we will be in a fair way of terminating the reigns of the trusts and reforming the worst abuses of trust and monopoly protection.

Now that the administration has declared for free trade with Portu-
